Now, *La glace franÃ§aise* is also localited in Asia and America; some people say that it will be the new *Starbucks*.

## Why you should go try their icecream

A good icecream needs good ingredients and Jean Mourroux understood that. His ingredients are local and are the best that we can find in America. Plus, there is **No Sugar** in his icecream. They are incredibly delicious **and Healthy**.

As Mr. Mourroux put it, "Eating icecream and being fit makes people happy, so why wouldn't I open an healthy icecream shop?" The only thing that we can maybe not enjoy as much as the rest is the price of the icecreams. Indeed, it's more expensive than normal icecreams. Jean Mourroux explains that the reason why the icecream worth the price is because the products that they use are better quality.
